

VENDOR INSPECTION SERVICES

GLOBAL INSPECTION SERVICES TO MEET YOUR DIVERSE NEEDS

Audubon Inspection Solutions (AIS) provides global inspection, expediting, and quality assurance services to oil & gas, petrochemical, refining, and industrial industries. With an emphasis on safety and efficiency, our qualified technical inspectors ensure compliance of client standards to avoid safety issues and minimize the risk of extra costs. From site and vendor inspections to expediting, we support the quality assurance process throughout procurement, fabrication, installation, commissioning, and operation phases.

Through our global network of highly skilled and competent personnel, inspectors, and expeditors, we meet client specific requirements that comply with all industry standards and regulations. Our key areas of expertise include site inspections, vendor inspections, and mill surveillance.
